(See rule 29F (2) and 29L)

**Report of medical examination under rule 29B**  
(To be issued in triplicate)\*\*

Certificate No.....

Certified that Shri/Shrimati\* employed as ..... In .....mine, Form B No. has been examined for an initial/periodical medical examination. He/she\* appears to be..... years of age. The findings of the examining authority are given in the attached sheet. It is considered that Shri/Shrimati\*.....

- (a)\* is medically fit for any employment in mines.
- (b)\* is suffering from..... and is medically unfit for
- (b) any employment in mine; or
- (c) any employment below ground; or
- (d) any employment or work.....

©\* is suffering from..... is should get this disability\* cured/controlled and should be again examined within a period of .....months. He/She will appear for re-examination with the result of test of..... and the opinion of .....Specialist from..... He/She may be permitted/not\* permitted to carry on his duties during this period.

Space for affixing Passport  
Size Photograph of the  
Candidate.

Signature of the examining authority  
.....

Place : Name and designation in Block letters  
Date :

\* Delete whatever is not applicable.

\*\* One copy of the certificate shall be handed over to the person concerned and another copy shall be sent to the manager of the mine concerned by registered post; and the third copy shall be retained by the examining authority,

**Report of the examining authority**

(to be filled in for every medical examination whether initial or periodical or re-examination or after cure/control of disability).

Annexure to Certificate No.....as result of medical examination on .....  
Identification Mark.....

Left thumb impression of  
The candidate

1. General development- Good/Fair/Poor

2.Height.....Cms.

3.Weight.....kg.

4Eyes :

(i) Visual acuity-Distant vision (with or without glasses).

Right eye.....Left eye.....

(ii) any organic disease of eyes

(iii) night blindness

(iv) Colour blindness

(v) Squint

(\* to be tested in special cases)

1. Inserted vide notification No.GSR 656 dated 5.6.1980

- (e) Ears :
- (f) Hearing : right ear.....Left ear .....
- (g) Any organic diseases.

6. Respiratory system.

Chest measurement :

- (i) after full inspiration .....cms.
- (ii) After full expiration.....cms.

7. Circulatory system:

Blood Pressure  
Pulse

8. Abdomen :

Tenderness.  
Liver.  
Spleen.  
Tumour.

9. Nervous system:

History of fits or epilepsy  
Paralysis.  
Mental health.

10. Locomotory system

11. Skin.

12. Hydrocele.

13. Hernia.

14. Any other abnormality

15. Urine :

Reaction.  
Albumin.  
Sugar.

16. Skiagram of chest.

17. Any other test considered necessary by the examining authority.

18. Any opinion of specialist considered necessary.

<sup>1</sup>(FORM – P)

(See rule 29F (i) and 29L)

**Medical Standard of fitness for Persons Employed**

1. The person should be in good mental and bodily health and free from any physical defect likely to interfere with his efficient employment in a mine.
2. Skeletal nervous system : The limbs should be well formed and developed, and the function of all the limbs should be within normal limits. Any deformity should be recorded. There should be no deformity or paralysis which may interfere with his efficient employment in a mine.
3. Skin :- There should be no evidence of extensive and chronic skin disease or ulceration. In case of infective type of skin disease, the candidate could be made fit after he has undergone a treatment. All occupational skin diseases should be noted.
4. (a) Eye vision should be not less than the following standard:
  - (1) Better eye 6/12
  - (2) Worse eye 6/18
  - (b) There should be no night blindness for persons employed below ground and for persons employed in open cast working in shifts other than in mornings shifts.
  - (c) A person having only one eye which functions normally should not be employed below ground, For employment on surface the vision of such a person in the other eye should be 6/18 with or without glasses.
5. Hearing should be good, Any progressive disease affecting hearing/or occupational deafness should be recorded.
6. Speech must be without serious impediment. Unless this is also accompanied by generalised partial paralysis this should not be a reason for declaring unfit.
7. (a) Respiratory system should be sound and free from any chronic bronchial or laryngeal disease. This however alone should not be reason to make unfit.
  - (b) <sup>2</sup>[A full sized postero-anterior chest radiograph (large) enough to include thoracic inlet and both costophrenic angles obtained by an X-ray machine of atleast 300 mA Milli-Ampere) strength shall be evaluated in the manner specified by the Chief Inspector and Lung function tests (spirometry) to record forced vital capacity (FVC) and forced expiratory volume in one second (FEV1) shall be made. There should not be any evidence of active pulmonary disease if] there are evidences of active pulmonary tuberculosis, he may be permitted to work if his sputum is negative on repeated examination and on production of a certificate that he is taking treatment from a qualified medical practitioner/hospital
8. Circulatory system – There should be no evidence of any heart or vascular disease which may interfere with his efficient employment in a mine.
9. In case the candidate has hernia he may be declared fit after he has been successfully operated for the same.
10. Hydrocele if present should not be large enough to impede the normal activities of the candidate. In such cases he may be declared fit after being successfully operated.
11. The medical examination should include examination of urine and of other system for evidence of disease. Mere presence of albumen and sugar in the urine without any gross organic disease producing signs and symptoms should not be considered as a disability.

---

1. Inserted vide notification No. GSR 656 dated 5.6.1980  
2. Substituted by GSR 707(E) dated 21.7.1989

**<sup>1</sup>(FORM – P-I)**

**(See rule 29F(1) and 29L)**

**Medical standard of fitness for persons to be employed in mines.**

1. The person should be in good mental and bodily health and free from any physical defect likely to interfere with his efficient employment in a mine. Due allowance in the standard should be made for the age of a candidate.

2. Locomotor system – The limbs should be well formed and developed and the function of all the limbs should be within normal limits. Any deformity should be recorded. There should be no deformity or paralysis which may interfere with his efficient employment in a mine. Any deformity noted should be recorded.

3. Skin – There should be no evidence of extensive and chronic skin disease or ulceration.

4. (a) Distant vision eye with or without glasses should be not less than the following standard.

	For workers employed on Surface and in opencast Workings	For workers employed below ground
1. Better eye	6/12	6/6
2. Worse eye	6/18	6/9

(b) Night blindness should be tested in special cases only in underground workers where the examining authority considers it necessary.

(c) A person having only one eye which functions normally should not be employed belowground. For employment on surface the vision of such a person in the other eye should be 6/12 with or without glasses. A person will be considered uni-ocular when there is physical loss of one eye or when there is functional loss of vision of one eye.

(d) Colour blindness will be tested only in special cases where the job requires good colour discrimination. Only low grade colour perceptions will be tested with Edridge Green's lantern.

(e) There should not be squint where binocular vision is essential.

(f) There should not be any organic disease of the eye which is likely to affect the distant vision within a period of five years.

5. Hearing should be good. Any progressive disease effecting hearing should be recorded. The candidate should be able to hear conversational voice from a distance of 3 metres.

6. Speech must be without serious impediments.

7. (a) Respiratory system should be sound and free from any chronic laryngeal bronchial pulmonary disease. Tuberculosis of lungs if not active should not be a disqualification.

(b) <sup>2</sup>[A full sized postero-anterior chest radiograph (large) enough to include thoracic inlet and both costophrenic angles obtained by an X-ray machine of atleast 300 mA Milli-Ampere) strength shall be evaluated in the manner specified by the Chief Inspector and Lung function tests (spirometry) to record forced vital capacity (FVC) and forced expiratory volume in one second (FEV1) shall be made. There should not be any evidence of active pulmonary disease if] there are evidences of active pulmonary tuberculosis, he may be permitted to work if his sputum is negative on repeated examination and on production of a certificate that he is taking treatment from a qualified medical practitioner/hospital

1. Substituted by GSR 707(E) dated 21.7.1989

2. Substituted, ibid

8. Circulatory system :- There should be no evidence of cardiac or vascular disease which may interfere with his efficient employment in a mine.

9. There should not be any evidence of disease of abdominal organs which is likely to affect his efficient discharge of duty in a mine.

10. In case the candidate has hernia, he may be declared fit after he has been successfully operated for the same.

11. Hydrocele if present should not be large enough to impede the normal activities of the person. If it is large enough he may be declared fit after being successfully operated.

12. The nervous system should be sound. Persons with history of epilepsy or any other type of organic or historical fits should not be declared fit for employment in a mine.

13. The medical examination should include examination of urine. Mere presence of albumen and sugar in the urine without any gross organic disease producing signs and symptoms should not be a disability.

14. Skiagram of the chest should also be obtained. If it is necessary the medical officer may direct the candidate to obtain the result of special tests or/and the opinion of a specialist from recognised institution/hospital.
